The collection will be the fourth **IJHS** regional issue. The first is devoted to North and South East Asia, the second to North America and the third to South Asia. These are already launched.

From 2008 the **International Journal of the History of Sport** will increase in frequency to 14 issues per year. There will be eventually four regional issues, three regular issues, two themed collections, and two review monographs. In addition there will be an Annual Review which will allow scholars the opportunity to develop ideas and arguments more fully than previously within a framework of some 15,000 words. There will also be a regional themed collection and review monograph. In 2008 this will be devoted to North America. In subsequent years the other regional issues will have their themed collections and review monographs.
